

# 2015 Dr. Martin Luther King, Jr. Art, Writing & Multimedia Contest

Mollie Gabriel (7th Grade)  
Logan Hocking Middle School  
Principal – Brice Frasure  
Teacher – Megan Anzalone

Pollution is a big problem in the world. Simple tasks could prevent this, or just make it better. Pollution is causing global warming, which is causing floods because of the glaciers melting. I would like to communicate my dream to stop pollution.

If pollution was stopped, some sea animals or polar bears or other animals might increase in their population, this would be good for scientists to discover. If pollution is stopped, then the world will be a better place.

*"I Have A Dream"*
