Showing love! That is what my poster is about. Dr. Martin Luther King, Jr. told us that if we show love, it will strengthen us. In the small circle on my art it shows one example of what we need to stop as love is not being shown. In the large heart I have drawn one helping another that shows love. Even though we are all different let's all have a BIG heart and show in many ways our love towards each other, building strength among all.
