This drawing illustrates my dream to end bullying. There are hundreds of people who take their own lives every year due to bullying. The picture shows how a girl is affected by the negativity she receives from being bullied, even though she is a good person on the inside. What, not only me, everyone can do to prevent bullying, is to be kind to one another. I plan to share my thought with my peers in hopes that it will stop bullying in our school. The world is filled with good people. If you can't find one, be one and help the world become a better place.
