

# 2016 Dr. Martin Luther King, Jr. Art, Writing, & Multimedia Contest

**Jacy Barracato**  
**6th Grade Art Winner**

Washington Park Community School, Newburgh Heights  
Mary Carter, Teacher  
Beth Murray, Principal

My project is called A Beloved Community, one side is a good side and the other side is a bad side, in my project there a wild fire caused by someone carelessly dropping a cigarette. A wild fire is made by the cigarette. All of these things act like matches they cause a chain reaction in our environment to make a big effect that will be humongous and no one would like that. Please recycle and keep your house and yard clean. And always mow your lawn and don't keep trash on the earth because if you do your community will turn into a junk yard. This is my Beloved Community project, remember to keep your community clean and you will be rewarded a with clean and safe environment.

## Beloved Community
